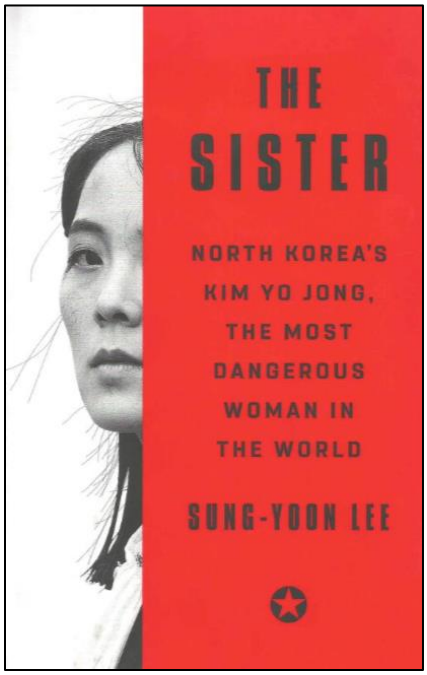
Someday, The Wall Will Fall or Die
Hilmi Saber – Safar 1447 / August 2025



The ruler rises in wealth and happiness.
The people rise too. But, into misery and sadness.
Love of the ruler is the fear of him.
Fear does not breed love.

The people express their smiles in cry.
How then, do they express their real cries ?!

No one trusts anyone.
Brother does not trust his brother.
Father does not trust his son,
Nor mother her daughter.
This is at the family level.
What about the military level then !.

The same practice of the Chinese on the Uyghurs.
A man lives without dignity. He / she is a gear
in a machine only.
Whips and chains are their daily oil !.

The northern accused the southern of
their relation with Americans.
Iranians say " Death to America "

Why the northern do not accuse
themselves of their relation with Russians ?!.
Iranians should accuse themselves too.
I hate the manipulation of the mind !.

Compare how Kim Yo Jong talks and bends to
the China president, with if she talks to her
leaders or to the Southern.
The title of the canvas: A slave acts as emperor !.
In gray gradual color: The Emperor Slave.

I suggest to Jong family, - I hope it works -
let Kim Jong Un's daughter Kim Ju Ae
marry her cousin Kim Han Sol.
The son of his brother Kim Jong Nam.
I wish the mercy would reach the brother's son.
Unfortunately, the mercy is far from touching the people !.
I felt illogical. I should be afraid that he suffers
the same end as his father.

The people are poisoned with communism
and atheism. Capitalism is a poison too.
Communism failed in the place of its birth.
Capitalism is the other side of the coin.
It turns into Fascism.

Communism makes people slaves to ideas.
Capitalism makes people slaves to money.
Ideas and money are more dangerous of
nuclear missiles in destroying a person.

Rarely, in a person's life to be hit by a missile.
In contrast, we are under attack of money and ideas daily.

The exception is Gaza; it looks like a pattern
every four years during the US election, the
bombing increase to support a candidate,
or Israel finds an opportunity to expand its killing
in absence of US listening to complaints from the
Arab countries. It is so funny, as if they listen, they
will act against Israel.

For the Israelis, the presidential elections are an
opportunity for blackmail. Smart as devil !
Israel does not pay attention to what is said under
the United Nations ceiling. The napkin of the veto
is always in the pocket !. It does not matter if it is in
the pocket of Israel or the US. Their pocket is one.

Israel is a spoiled child. I am afraid the US is the spoiled child of Israel !.

The tyrannical administration is one of the common between Israel and North Korea. One of tyrant technique is to invent the enemy. You name it "cold war", "hot war" and "fur war" it does not make any difference. All are an illusion in which you build facts as a schizophrenic man. His sickness starts from illusion.

The propaganda "snow war" against South Korea is a tool for the Northern Jongs to strengthen their external and internal power . If a missile will hit the head of South Korea, the jail and torture will hit a northerner who takes an opposition stand.

I said: ideas and money are more dangerous.
The dilemma of the northern: they are under both slavery of ideas and money. The worse of communism and capitalism are gathered by the Jongs. What poor people !. I feel sorry for them.

I feel sorry for Kim Yo Jong too.
A woman is the place of warmth and tenderness.
But, she was raised as she is today.
How much of sharp broken glass under her soft skin !.

Suppose North Korea allowed its people to immigrate
to South Korea, how many would remain not to leave ?
Would the southern immigrate to the north ?!
You need to interpret the variance.

North Korea is not much far from the Israeli style or pattern.
Bombs cannot make Palestinians love Israel. They plant
hatred in every child.

Do you know, what it means for a child to hate ?
He will carry it with him forever. It grows as he grows.
Someday, he waits for an opportunity. He is no more
that innocent child !.

If your people don't protect you, one day they will
wake up to remove you; you are their life pain !.

A terrifying leader is the most terrifying person.
No wonder !. Managing people by terror and fear,
it hides his weakness.

Do you realize when a homeland is misery ?
If they can not face, they will escape.
Misery surrounds them day and night.
Sunset and sunrise are the same !
Tomorrow is the yesterday !

When ribs break.
When heart is not comfortable in his chest.
Anger grows.
Fences are inserted in their skin
A free man is insulted in a cage !.
The borders of my steps
are walked by you, by your brain ?!
What a pain !

The German wall fell down, and the Hungarian cut the fence.
You are not far. The northern existing fence tears people skin.
Their bleeding makes you laugh.
Someday, you will cry. If not, someday you will die.

It is better to stop here; the story is very long.
The story is everywhere.
The story of man and government.

It is a miserable story.
In it, you are the game and the toy.

Take care
